

# HEALTH AND COLORS (VITILIGO)

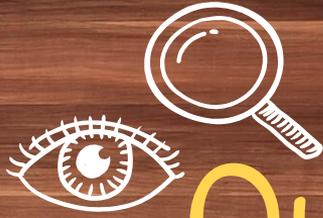

1.

## WHAT IS IT?

Vitiligo is a skin disease produced by a lack of melanin in some parts of the body.

# QUICK CONCEPT

## What is melanin?

Dark pigment located on the skin, which produce the coloring of hair, eyes and skin.

154.600.000

That's only a 1,5% of the world population!  
That's a big number, isn't it?

## LET'S VIEW SOME CONCEPTS!

### Characteristics

It is characterized by the appearance of irregular white spots on the skin

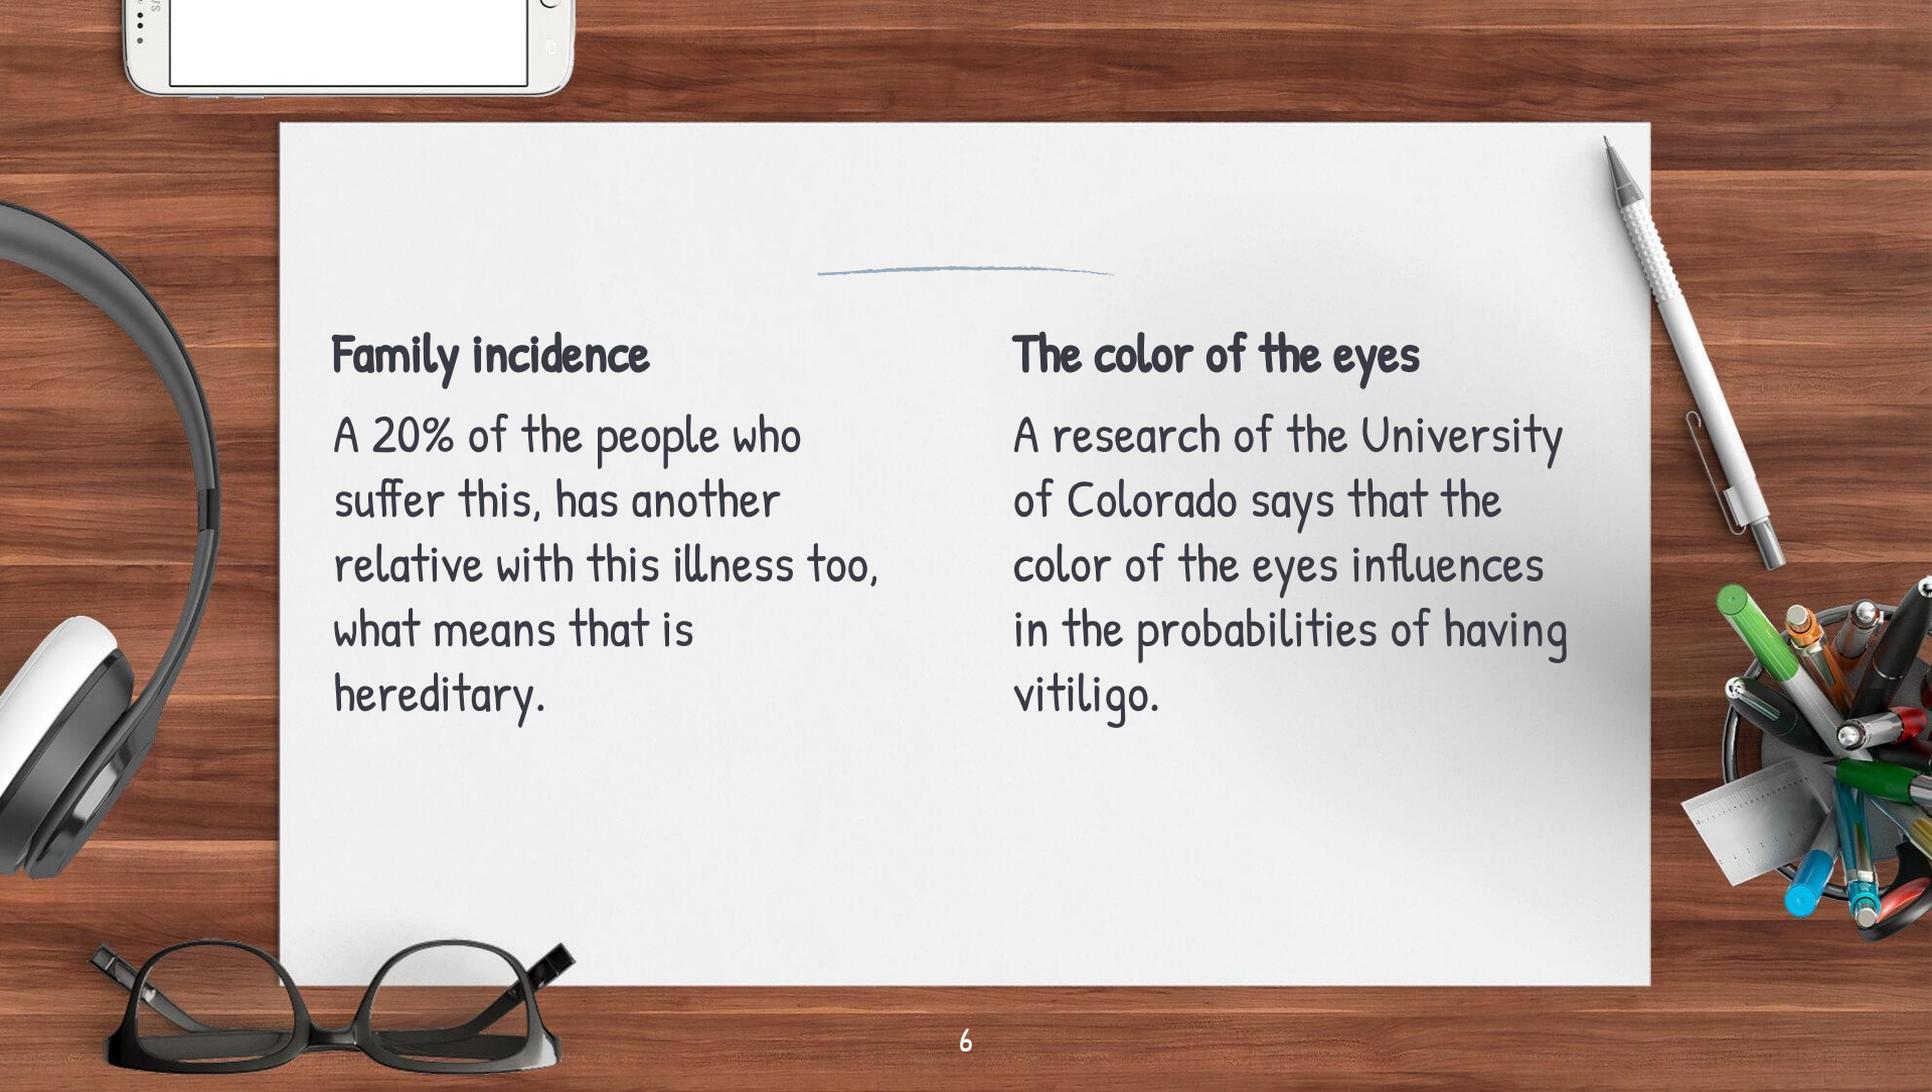

### Percentage

This skin disease is not very common, as it is suffered by between a 1 or 2 percent of the world population.

### Causes

The most common causes are:

- Stress
- Sunburn
- An immune system disorder
- family incidence.

---

## Family incidence

A 20% of the people who suffer this, has another relative with this illness too, what means that is hereditary.

## The color of the eyes

A research of the University of Colorado says that the color of the eyes influences in the probabilities of having vitiligo.

## SYMPTOMS

- > White stains on the skin (in parts such as hands or mouth).
- > Loss of melanin from hair.

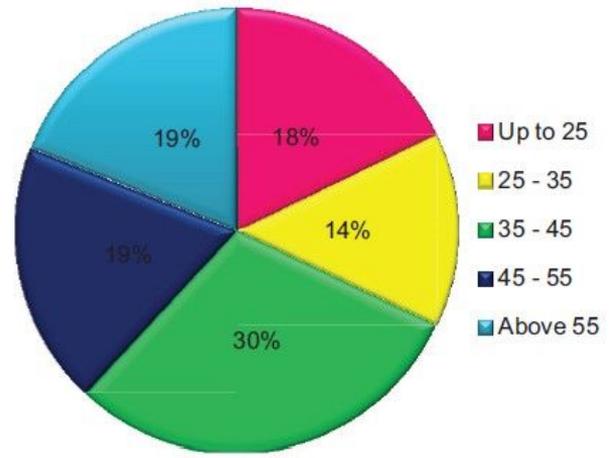

## DIAGNOSTIC

- > Lamp of Wood
- > Analyse of blood glucose
- > Thyroid analyse

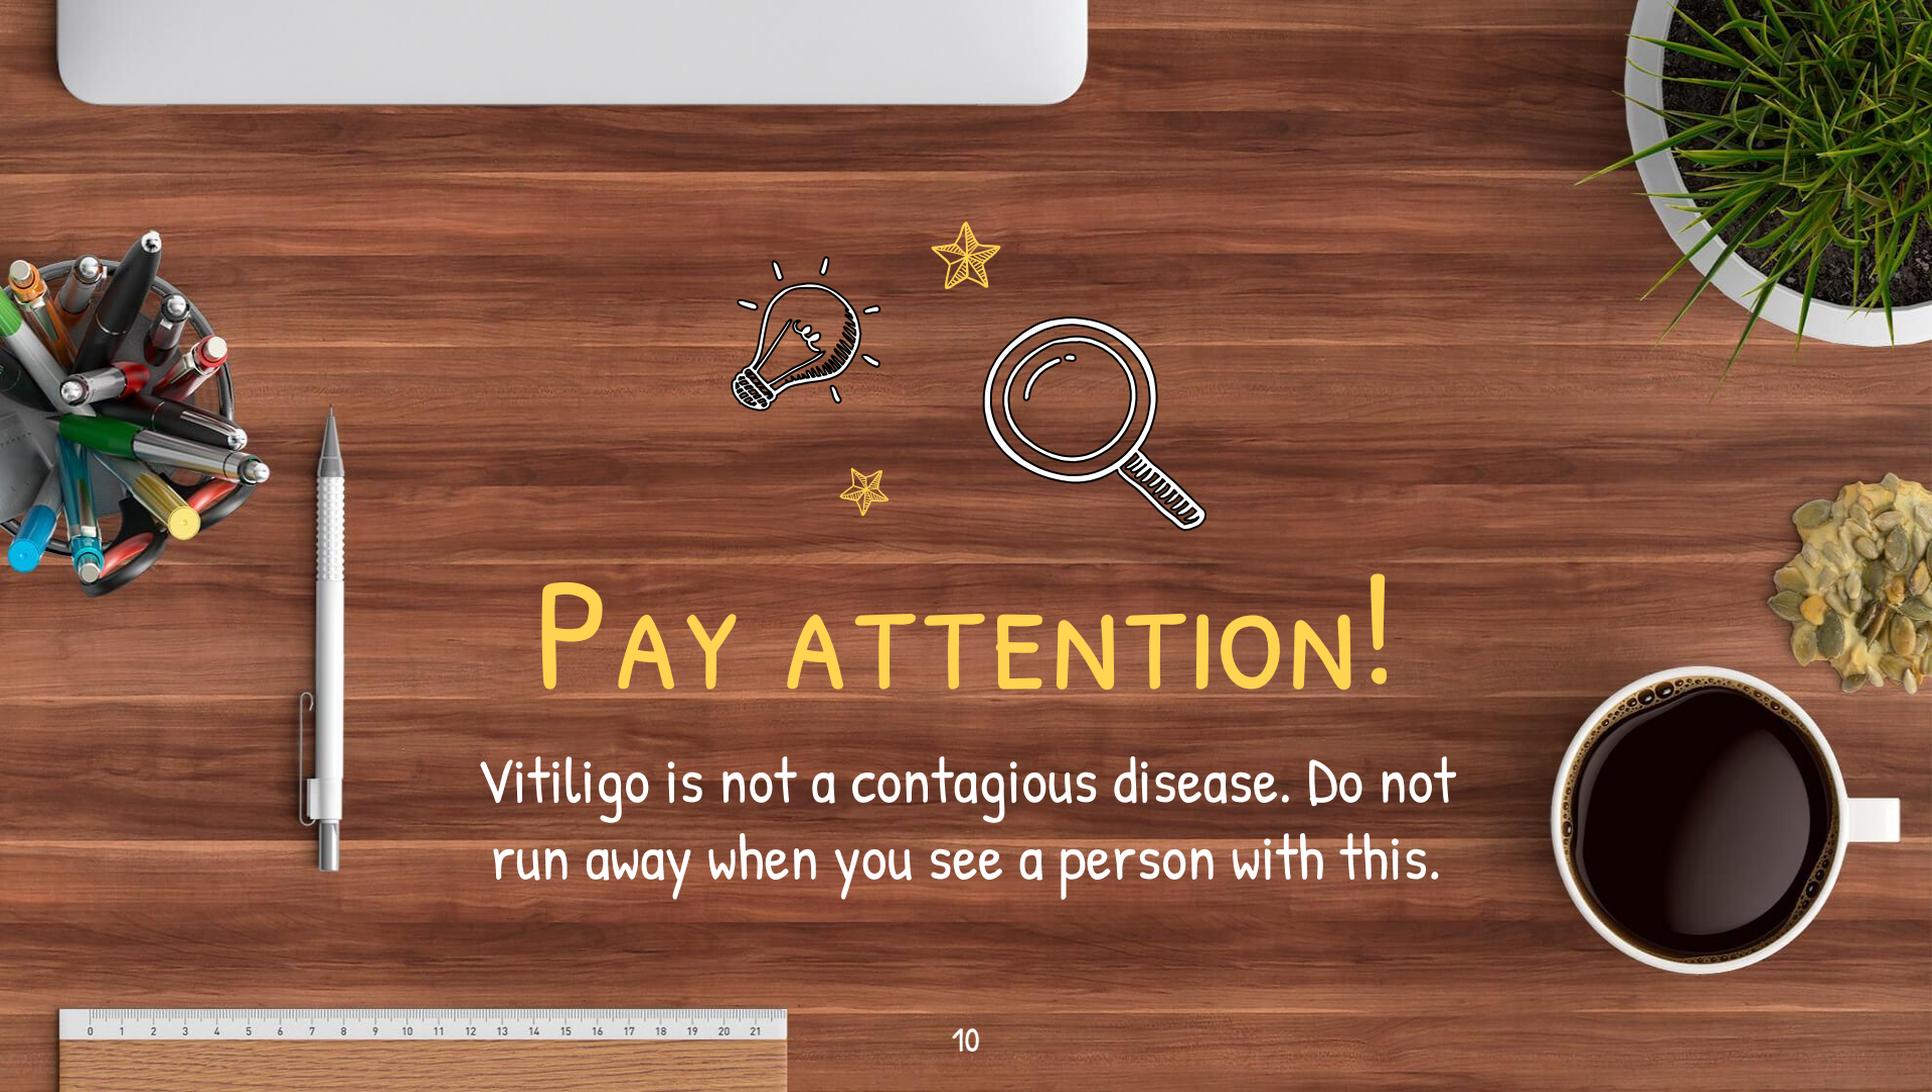

# MAPS

Age range

This graph shows you the percentage of inhabitants of the world who suffer vitiligo in each age range

# PAY ATTENTION!

Vitiligo is not a contagious disease. Do not run away when you see a person with this.

# ANIMALS WITH VITILIGO

Horses, crocodiles, giraffes dogs, cats, zebras, chameleons, peacocks...  
Everyone can have this!

# FAMOUS PEOPLE WITH VITILIGO

Taliana Vargas

Michael Jackson

Silvia Abril

Juan José Bautista

Chantelle Brown-Young

## CHANTELLE BROWN (WINNIE HARLOW)

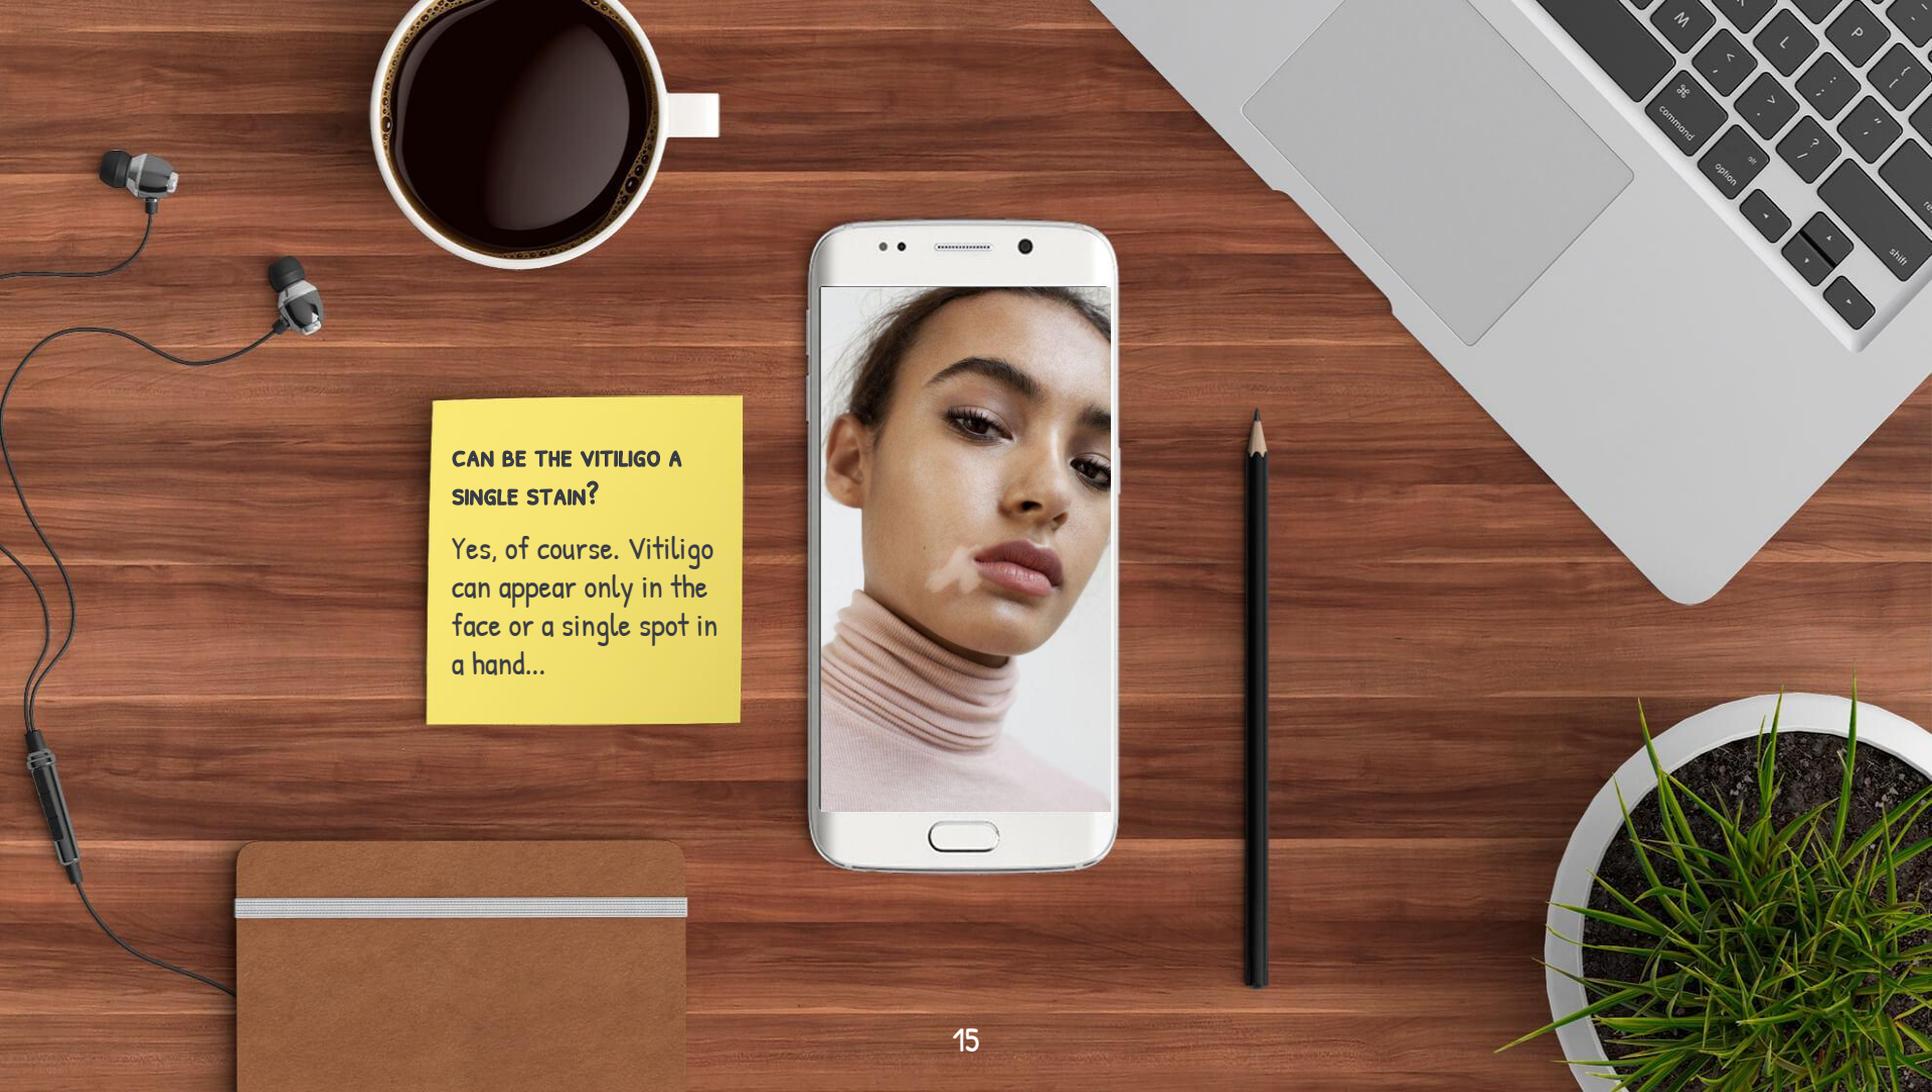

When she was only a child, she was called “cow” or “zebra” at school. Now, Chantelle is a top model and ambassador of the famous brand *Tommy Hilfiger*.

## JUAN JOSÉ BAUTISTA MARTÍN (JUAN Y MEDIO)

A Spanish TV presenter.  
He decided to accept his  
vitiligo since he knew he  
had that. Juan didn't care  
about the critics and  
went ahead.

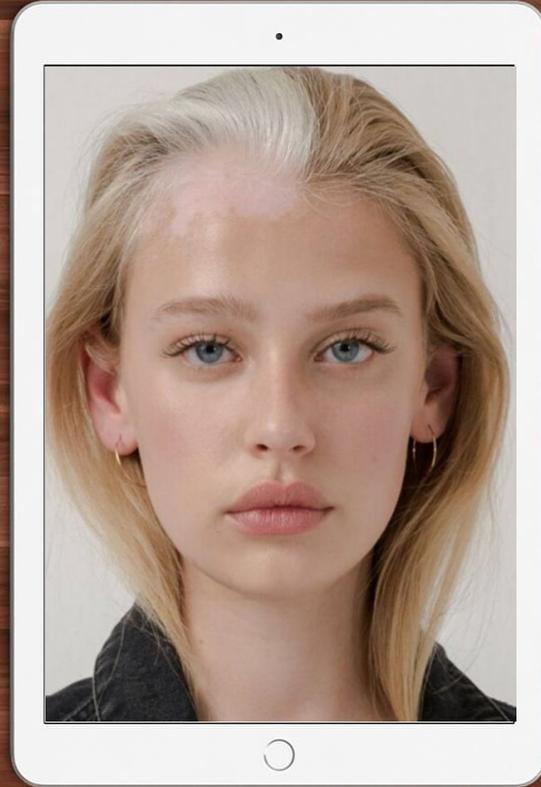

**CAN BE THE VITILIGO A  
SINGLE STAIN?**

Yes, of course. Vitiligo  
can appear only in the  
face or a single spot in  
a hand...

**CAN THE VITILIGO AFFECT  
TO THE HAIR?**

The color of the hair  
can change if you have  
this disease.

A top-down view of a wooden desk. In the center is a light blue clipboard with a black clip at the top, holding a white sheet of paper with a quote. To the left of the clipboard is a white cup of black coffee, a loaf of bread with seeds, and a stack of papers. To the right is a silver laptop and a small potted plant. At the bottom of the clipboard is a fountain pen.

“Being beautiful means  
being yourself. You don’t  
need to be accepted by  
others. You need to be  
accepted by yourself”

Thich Nhat Hanh
